

# YOU'LL BE SHOCKED!

**17 turbines each the same 93m height as the Statue of Liberty!**

An impression of the impact on the skyline looking over Carriston

## **Clatto Hill will never be the same again,**

if 17 giant wind turbines are planted there, just north of Kennoway. The uniquely pleasing landscape of much of central Fife will suffer a shock. These towering turbines are higher than ever before and being put closer than ever before to neighbouring residents. Can you imagine 17 monsters the height of the Statute of Liberty less than half a mile away from your windows and garden? Can you imagine how the outstanding views important to tourists and locals alike will be spoilt? Can you imagine how many more windfarms there will be in Fife, if this one gets the go ahead? Will you let this happen?
